

NEWPORT!
Published every morning (Sundays excepted)
BY GEORGE T. HAMMOND,
At 123 Thames Street.
FRIDAY, JUNE 24, 1859.

Our Member of Congress.

By the result of the election on Wednesday, Christopher Robinson, Esq., of Cumberland, will represent this district in the next Congress. Mr. Davis's friends fought gallantly; and although the result shows that there were not quite enough of them; yet we cannot but consider the vote received by that gentleman to have been a high personal compliment, as well as an encouraging omen for the lovers of straight and uncorrupted Republicanism.

The News has advocated Mr. Davis's election with all its power; because we sincerely believed him to be the better man for the place. It was scarcely a disappointment to Mr. Robinson to say so, for there are few men in the State of Rhode Island as well fitted for a seat in Congress in seasons of great responsibility, as Thomas Davis, and many of our most accomplished and able men must be content to rank below him: We have never understood to base our opposition to Mr. R. on grounds personal to himself. His private character we believe to be unimpeachable. His political course thus far has not led us to hope for that inflexibility of right purpose, and moral courage which we shall need in a Member of the Thirty-sixth Congress. He will now have an opportunity to show his possession of these merits, and to test them thoroughly; and none of his own supporters will be happier to see them displayed, than we shall be to find ourselves favorably disappointed.

A NEW EPISCOPAL NOVEL.—Messrs. J. E. Tilton & Co., of Boston have now in press, to be published in a few weeks, a new Episcopal novel entitled "Duty," written by a lady well known in our literary circles and who has proved herself eminently qualified to write a popular and pleasing book: Those who have read the manuscript that the work will meet with a most decided success.

A well known episcopal clergyman who is a good judge, pronounces it as quite equal to that justly admired book the "Wide World," which is certainly a high commendation.

A BOOTS BANK BROKEN UP.—A bogus bank in Indiana, known as the Hartford Manufacturers Bank, of which Mr. M. H. Williams was President, Cashier, Teller, runner and all hands, has been broken up. The concern appears to have been a most perfect swindle. It had no specie to redeem the thirty or forty thousand dollars put in circulation; the banking house was found out in the woods, for which a rent of \$12 per annum was paid. Mr. Williams was taken into custody. It is stated that a publisher of a bank note detector in this city had been induced to quote these notes at 1-1-2 per cent. discount! There are more similar concerns which ought to be broken up. The Cincinnati Daily Times gives great credit to the police of that city for ferreting out the parties and arresting them.—N. Y. News.

Oliver Wendell Holmes sent two poetical letters to the "Post Office" of an Episcopal Fair at Pittsfield. In one of them the first stanza was:
"Fair lady, whose'er thou art,
Turn this poor leaf with tenderest care—
And hush, O hush thy breathing heart—
The one thou lovest will be there."
On turning the "poor leaf" there was found a one dollar bill with some verses, beginning:
"Fair lady, lift thine eyes and tell
If this is not a truthful letter,
This is the one (1) thou lovest well
And neight (2) can make thee love it better."
(10)

The New York correspondent of the Boston Journal says.—Almost any day that is pleasant, the form of Mr. Sickles may be seen on horse-back in the upper part of the city. But all who knew him one year ago, saw his full and genial appearance, the curve of his nose and the brightness of his eye, as they beheld him, "What a change!" He is quite thin, stoops as he rides; a restless movement marks his appearance, and he appears like one on whom a heavy burden weighs down. It may be the deed of blood on his hands; it may be the desolation of his home and the public shame.

The U. S. Economist of the 15th, publishes an article to show that the price of wheat is not likely to increase on account of the war. In the years of war in France, wheat was cheaper than in time of peace, and for the obvious reason that, under ordinary circumstances, France produces a surplus to export, which cannot be done in time of war. For the same reason, England—which never produces enough for her own wants, is greatly embarrassed in time of war, if the crops are deficient. With the seas open to each power, there is for the present no prospect of an effective rise in grain.

Our Minister, Mr. Harris, tells us that in Japan, the current value of gold is silver is as three to one; to buy one ounce of gold there requires only three ounces of silver. Now, as in Europe and America, one ounce of gold is worth about sixteen ounces of silver, it is plain that we shall be glad to supply them with silver.

The Ogdensburg Daily Journal speaking of a recent walking feat which had been completed by a Highland maid, in which she had walked for sixty consecutive hours:—"She had better walk into the affections of some young man, and do up the culinary of his house—she had."

LOCAL INTELLIGENCE.

Court of Sessions.—Two cases on the docket yesterday, which were disposed of as follows: James Boston, for Revelling, fined \$3 and costs paid. Wm. Tinsley, for assault and battery on C. O. North. Plead guilty; fined \$1 and costs; committed.

Young, corner Thames and Mill Streets, sent round to the News office yesterday several boxes of extra nice strawberries, wherever all hands, including the "devil," might regale themselves. These, we presume, are the same kind of strawberries he sells to customers, and like everything else he sells, are A. No. 1.

There will be a meeting of the I. O. of O. R. to-night, at their Lodge room; for discussion of important business. See advertisement.

Correspondence of the News.

WESTERVLY.
MR. EDITOR:—I send a few "News Items" for your columns; thinking, that they may not be without interest to, at least, a portion of your readers.

On Monday the 13th, instantly, the usual quietness of our village was somewhat disturbed by the cry of fire. It was soon known that the place of the fire, was the house of Major James Babcock, situated about a mile from this place; and on the road to the village of White Block.

The whole upper part of the house was in flames before the engines arrived; and owing to the deficiency of water, but little could be done with them towards saving it, and in a short time it was nearly destroyed.

Everything in the upper part of the house was burned; but most of the movables on the first floor were saved. It is hardly known what was the origin of the fire, but I believe it is supposed that it must have caught by sparks from the chimney. The loss of Mr. Babcock is estimated at about \$1000, and will be felt quite heavily by him as he had no insurance. A part of the house was occupied by Mr. Thomas Collins, who lost considerable furniture. A young woman who was boarding with Mr. Babcock, lost nearly all of her clothing together with a small sum of money. I have learned that a subscription paper was circulated among the operatives of the factory in which she is working, and some \$50, was raised for her benefit. I am also pleased to learn, that, several of the wealthy men of the place, have contributed quite liberally in aid of Mr. Babcock.

On Saturday, the 18th inst., considerable excitement was created in our streets, from the fact that, human body was seen floating down the river. It was got on shore near the lower part of the village, and though much disfigured, it was identified as the body of a boy of the name of Moore, who was supposed to have been drowned on the 14th of March, at Potter's Hill, a place about 5 miles north of here. It is supposed that he must have been caught in some manner along the banks of the river, until dislodged by the rising of the water, caused by the heavy rains of Friday.

The weather, (if it is lawful to say anything about it) continues—well, I hardly know how to express myself on that subject, and will only say that we have rain in plenty.

EAST GREENWICH.
The Mill-dam at the Mount Hope Factory in East Greenwich, was carried away by the freshet last night. It is a small cotton mill, and is owned by Messrs. Spencer & Pierce. The loss is estimated at some two or three hundred dollars, and will cause the mill to stand still for three or four weeks, perhaps longer.

The river is still very high. June 18th, MILLER.

Kossuth left England for Italy on the 7th, after having had an interview with the French Ambassador in London. Time works wonders. It is but a few years ago that the French Government would not so much as permit the great Magyar to set his foot on its soil! Now he may not only go to France, but before he goes he is the recipient of diplomatic courtesies extended to him by a French Minister.

Peter Verdone, a convict in the Michigan State Prison, who had made application to the Governor for a pardon, cut off one of his fingers with an ax, (before briefly alluded to,) rolled it up in a paper and requested that it might be sent to the Governor as an evidence of the truth of his statement.

The Association of the survivors of the war of 1812, of the District of Columbia, held their anniversary meeting on Saturday. During the past year three members have died, and there are now 108 names on the roll. Col. Wm. W. Sinton, of the National Intelligencer, was elected President of the Society.

IMPRISONMENT OF AN INNOCENT MAN.—Daniel Pierce, who has served six months of a sentence of three years in the Ohio Penitentiary, has been pardoned by Gov. Chase, it having been clearly shown that he was innocent of the crime of forgery, whereof he had been convicted before a Hamilton County jury.—N. Y. Tribune.

"Mr. C. has spoken ill of you," said a gossip to his friend, a man who thoroughly understood the world. "That astonishes me," was his reply. "I have never rendered him any service."

The Baltimoreans are moving for the formation of a "Baltimore Sabbath Association," composed of Christians of all classes, the object of which is to prevent Sabbath breaking.

THE GROWING COTTON CROP.—Very favorable reports are received of the growing crop of cotton. It is promising well in all the regions heard from.

A Revolutionary Incident.

From Irving's Washington we give the following incident:—

A large party of Virginia riflemen, who had recently arrived in camp, were strolling about Cambridge, and viewing the college buildings; now turned into barracks; their half-Indian equipments; fringed and ruffled hunting garbs, provoked the admiration of some troops from Marlborough, chiefly fishermen and sailors; who thought nothing equal to the round jacket and trousers. A bantering ensued between them; there was snow upon the ground, and snow-balls began to fly when jokes were wanted. The parties waded wath with the contest. They closed and came to blows; both sides were reinforced, and, in a little while, at least a thousand were at disports, and there was tumult in the camp worthy of the days of Homer. "At this time," writes our informant, "Washington made his appearance, whether by accident or design, I never knew. I saw none of his aids with him, and his black servant was just behind him, mounted. He threw the bridle off his own horse into his servant's hands, sprang from his seat, rushed into the thickest of the melee, seized two tall brawny riflemen by the throat, keeping them at arm's length, talking to and shaking them.

As they were from his own province, he may have felt peculiarly responsible for their good conduct; they were engaged, too, in one of their sectional brawls which were his special aversion, his reprimand must, therefore, have been a vehement one.—He was commanding in his sternest moments, but irresistible in his bursts of indignation. On the present occasion, we are told, his appearance and strong-handed rebuke put an instant end to the tumult.—The combatants dispersed in every direction; and, in less than 3 minutes, none remained on the ground but the two he had collared.

To the above the Commercial Advertiser adds the following:

Reading the above incident, reminds us of a similar one, which occurred during the war of 1812. A war party of the Onondagas and Oneidas were at Rome, (Old Fort Stanwix,) on their way to the North. Early one morning, after having drank freely of whiskey, some became quarrelsome, and two of them were about to draw their weapons, when the Hon. George Huntington, an eminent merchant of that place, who was smoking his "long pipe," threw it away, and, at a single bound, seized the up-lifted arm of each Indian, and held both men, until he had shaken them as long as he desired, and then threw them from him, to a considerable distance. It was a dangerous experiment, and few men would have dared to have attempted it. George Huntington, however, was a second Washington to those Indians. He had lived among them for a long time, and had been, for years, a warm friend to them, and of this they were fully assured.

RE-INTERMENT OF THOSE WHO FELL IN PERRY'S VICTORY ON LAKE ERIE.—The Masonic Fraternity of Erie, Pa., propose to perform this ceremony on the Fourth of July, as will be seen by the following extract of a letter dated Erie, Pa., June 7th, 1859.—"We are to have a grand Masonic parade and festival on the next anniversary of our nation's birthday. The great object of the military demonstration to be held here on the Fourth of July, is to re-inter the remains of those who gloriously fell in battle in Commodore Perry's fleet, in the war of 1812. Their remains have recently been exhumed by the excavations now making on the Sunbury and Erie Railroad, at the bank of the lake overlooking our harbor."—N. Y. Post.

Italy is about as large in territory as three such states as Ohio. It contains 25,000,000 of people. The largest Italian state is Naples. It occupies more than one third of the peninsula, and contains ten millions of people. The state of Tuscany has about two millions, and Parma and Modena one million of inhabitants. Sardinia has a population of five millions, and is nearly the size of South Carolina. The states of Lombardy and Venice belong to Austria in sovereignty, and contain five millions of people.

The Toronto Leader announces that the Grand Trunk Railway Company have entered into a contract with a new firm, to be established in Toronto, for the re-manufacture, for a term of years, of all their old rails. The capital necessary to start it will not be less than \$4,000,000; and it is calculated that it will give regular employment to 400 or 500 hands, and pay from \$800 to 1,000 a day in wages. It will be the first large manufactory ever established in Toronto, at the same time that it will be one of the largest, if not the largest, in the whole province.

SUICIDE ON ACCOUNT OF THE LATE FROSTS.—John McCune, a well-to-do farmer of Chatham, last fall planted a large quantity of wheat, that came forward finely until the late severe frosts, which he declared had completely cut down his crops, and ruined him, reducing him to the verge of starvation. While in this state of frenzy, he attempted to murder his children, but failing to accomplish his purpose, cut his throat and died almost instantaneously.—Boston Traveller.

A "general reader" sends the following prescription to the Pittsburg Gazette:—"A poison of any conceivable description and potency, which has been intentionally or accidentally swallowed, may be rendered almost instantly harmless, by simply swallowing two gills of sweet oil. An individual with a very strong constitution should take nearly twice the quantity. This oil will most positively neutralize every form of vegetable, animal, or mineral poison, with which physicians and chemists are acquainted."

MEXICAN SILK.—The N. O. Picayune has examined a parcel of Mexican silk received from the latitudes of Tehuantepec, which it says is a curious product of Southern Mexico, and grows on one of the most beautiful and majestic trees of those inhospitable forests. It is strong in fibre, and firm in stable as the silk worm's thread, which, in appearance, it much resembles, and wonderfully soft to the touch.

The Hog Disease has broken out again. Numbers have died in the West, and in New York from droves brought from the West.

IN New York, on Tuesday, 20th inst., by Rev. Dr. Tynce, Warren H. Day to Eliza H., daughter of the late James Coggeshall.

DECEASED.
The funeral of Mr. Hugh Francis will take place this (Friday) afternoon at 2 o'clock, from his residence on Lee's wharf, at Bellevue, and friends are invited to attend without further notice.

News from the Journal.

PORT OF NEWPORT.

ARRIVED YESTERDAY.

To Married Ladies.

DR. MATTHEW'S INDIAN FEMINAGOGA is a new and elegant medicine, designed expressly for females. It is prepared from an Indian plant, which has been used by the Indians for centuries, and is now brought to the public for the first time. The name of the medicine is a corruption of the Indian word "Feminagoga," which signifies "to bring down," or "to purge." It is a very gentle agent, and is warranted to cure any case of obstruction of the monthly menstruation, or of any other disease of the female system, which arises from a stoppage of the natural flow of the blood. It will also cure any case of indigestion, or of any other disease of the stomach, which arises from a stoppage of the natural flow of the blood. It is a very safe and reliable agent, and is warranted to cure any case of obstruction of the monthly menstruation, or of any other disease of the female system, which arises from a stoppage of the natural flow of the blood. It will also cure any case of indigestion, or of any other disease of the stomach, which arises from a stoppage of the natural flow of the blood. It is a very safe and reliable agent, and is warranted to cure any case of obstruction of the monthly menstruation, or of any other disease of the female system, which arises from a stoppage of the natural flow of the blood. It will also cure any case of indigestion, or of any other disease of the stomach, which arises from a stoppage of the natural flow of the blood. It is a very safe and reliable agent, and is warranted to cure any case of obstruction of the monthly menstruation, or of any other disease of the female system, which arises from a stoppage of the natural flow of the blood. It will also cure any case of indigestion, or of any other disease of the stomach, which arises from a stoppage of the natural flow of the blood. It is a very safe and reliable agent, and is warranted to cure any case of obstruction of the monthly menstruation, or of any other disease of the female system, which arises from a stoppage of the natural flow of the blood. It will also cure any case of indigestion, or of any other disease of the stomach, which arises from a stoppage of the natural flow of the blood. It is a very safe and reliable agent, and is warranted to cure any case of obstruction of the monthly menstruation, or of any other disease of the female system, which arises from a stoppage of the natural flow of the blood. It will also cure any case of indigestion, or of any other disease of the stomach, which arises from a stoppage of the natural flow of the blood. It is a very safe and reliable agent, and is warranted to cure any case of obstruction of the monthly menstruation, or of any other disease of the female system, which arises from a stoppage of the natural flow of the blood. It will also cure any case of indigestion, or of any other disease of the stomach, which arises from a stoppage of the natural flow of the blood. It is a very safe and reliable agent, and is warranted to cure any case of obstruction of the monthly menstruation, or of any other disease of the female system, which arises from a stoppage of the natural flow of the blood. It will also cure any case of indigestion, or of any other disease of the stomach, which arises from a stoppage of the natural flow of the blood. It is a very safe and reliable agent, and is warranted to cure any case of obstruction of the monthly menstruation, or of any other disease of the female system, which arises from a stoppage of the natural flow of the blood. It will also cure any case of indigestion, or of any other disease of the stomach, which arises from a stoppage of the natural flow of the blood. It is a very safe and reliable agent, and is warranted to cure any case of obstruction of the monthly menstruation, or of any other disease of the female system, which arises from a stoppage of the natural flow of the blood. SOYERS SULTANA SAUCE, FOR HOT OR COLD DISHES OF ALL KINDS.

THIS most delicious
sauce, originally
made by the renowned
"Soyers" of the "Re-
form Club" of London,
is now manufactured by
the well-known house of
ROSS & BLACK-
WELL, from the origi-
nal recipe. It has re-
ceived the highest praise
from all the leading
English journals, and is recommended
by that high medical authority, the *London Lan-
cet*, as affording great aid in cases of slow
and weak indigestion. The manufacturers
simply ask for a trial, knowing that it must
add to the already large consumption, as
have ever discontinued to use it. For sale by
all dealers in fine groceries throughout the
country; in Newport by G. P. Barber, 4
and 6 Market square. Sole Agents for the United
States,
G. P. BARBER, 217 Fulton St., New York.
34 Cornhill St., Boston.

TAX ASSESSORS' NOTICE.
THE Assessors of Taxes of the City of
Newport, hereby give notice that they
will be in session at the City Council Cham-
ber, for the purpose of assessing the tax that
may be ordered by the City Council for the
present fiscal year, from Tuesday, July 12th,
until Friday, July 22d, inclusive, (Sunday ex-
cepted) from 9 o'clock a. m. till 12, and from
2 o'clock p. m. till 5, in all public places.
By chapter 9, sec. 5 and 6 of the Revised
Statutes, all persons and bodies corporate are
required to bring in to the Assessors an ex-
act account of all their rateable estate, de-
scribing and specifying the value of each
parcel, at such time as the Assessors may
prescribe. Every person bringing in such
account shall make oath before some one of
the Assessors, that the account by him ex-
hibited contains, to the best of his knowl-
edge and belief, a true and full account and
valuation of all his rateable estate, and when
ever refused or neglects to bring in such ac-
count, if overtaxed, shall have no remedy
therefor.

CONSTABLE'S SALE.
By virtue of an execution issued from the
office of William G. Dorden, one of the
Justices of the Peace in the town of Fall
River, county of Newport and State of
Rhode Island, bearing date March 29th, 1859,
Will be sold on Saturday, June 25th, 1859,
at 1 o'clock p. m., all the right, title and in-
terest which said Timothy and Mary E. B.
either of them had, on the 22d day of
March, A. D., 1859, at 8 o'clock p. m., in and
to a certain tract of land, situated in Fall
River, county and State aforesaid, and
bounded and described as follows, viz: being
1st No. 1, section No. 32, on plan of land
formerly belonging to Andrew Rubensan, and
is bounded northerly by Hope street, easterly
by lot No. 6, southerly by lot No. 3, and west-
erly by Garden street, together with the
building thereon, extending the same being
the lot of land formerly owned by the Fall
River Bank. All or so much thereof will be
sold as will satisfy said execution, the sum
being \$31 10.
JOSEPH HEVLY,
Constable.
